# Tresillian Safe Sleep & Rest Practices

Tresillian strictly follows NSW Health Safe Sleeping recommendations for babies and children aged up to three years.

## Safe Sleep Environment

- No child will be sent to sleep or rest as a form of discipline.
- If a pillow is to be used for a child over 2 years of age, a flat firm pillow will be provided.
- No soft toys or other objects are permitted in the cot for children under 12 months of age.
- Use only lightweight wraps (without a Velcro attachment) such as cotton or muslin.
- If the child is able to roll from their back to their tummy and then onto their back (usually within 4-6 months) nurses will promote the discontinuation of the wrap for settling and sleep during the admission.
- If a sleeping bag is used (cots only) it should be the correct size for the child with a fitted neck, armholes (or sleeves) and no hood; arms must be placed through the armholes.
- If a child is able to pull to stand in their cot, please discontinue the use of a sleeping bag during the appointment.

## During the Appointment your child will:

- Be placed on their back to sleep with their feet positioned at the bottom of the cot unless otherwise medically indicated (under 12 months).
- Sleep with their face uncovered at all times with no bonnets, beanies, hats or hoods, quilts, doonas, duvets, pillows, lamb's wool and Velcro wraps, roll supports, a wedge under mattress, cot bumpers, sheep skins or snuggle beds, whilst sleeping.

## All settling strategies will:

- Be based on responsive parenting practices by encouraging parents to listen, watch and respond in a timely, sensitive manner to their child's tired and/or distress cues.
